

● PARTNERSHIP PROPOSAL · VOLUME IV OF V · CEO MEMO

Recurring B2B revenue. Zero marginal cost. Investor-ready in 90 days.

A four-page memo for Akshay and the Leverage Edu CFO ahead of the bankers' meetings. Halcyon's referral economics are structurally **recurring, high-margin, B2B** — exactly the line a study-abroad ed-tech in IPO-prep needs to diversify its narrative. One conversation. Then a 90-day pilot. No exclusivity, no sunk cost.

3-YR ARR AT MID-CASE SCALE

THE NARRATIVE GAP

Bankers will price Leverage on its **recurring** revenue mix.

Study-abroad commissions are transactional. Each placement is a one-shot cheque. Counselling revenue is bumpy — dictated by visa cycles, exchange rates, and policy shifts (the FY26 US H1B fee shock is the case in point). The premium multiple in the IPO comes from **recurring B2B revenue lines that survive policy regimes**. Fly Finance is one. Fly Homes is another. Halcyon is the third — and it requires no infrastructure investment from Leverage to launch.

What Halcyon adds to the cap table story

- **Recurring B2B revenue** — 10% of every Halcyon client's monthly fee for the lifetime of the contract. Zero marginal cost on Leverage's side.
- **Diversification away from US student-visa exposure** — Halcyon's revenue is denominated in US clinic fees, completely independent of US student-visa volume.
- **Brand-aligned** — healthcare and education are Leverage's two declared growth verticals. Halcyon sits at the intersection.
- **Network compounding** — every nurse Leverage Careers places becomes a node in the channel for Halcyon. Compounds with the existing roadmap.

The mechanics, stated plainly

- Halcyon manages full revenue cycle for US independent practices — 4–6% of collections.
- Average practice = \$130K/mo collections × 5% = \$6,500/mo Halcyon fee.
- Channel partner (Leverage) receives **25% of month-1 fee + 10% recurring**.
- Per signed practice: **\$8,775 to Leverage in Year 1, \$7,800/yr in perpetuity**.
- Net retention > 95% — consistent with industry billing-vendor benchmarks.

Bottom line: 100 closed practices = ₹6.5 Cr in Year 1 channel revenue, scaling to **₹13 Cr/yr in steady state** on Leverage's books, with ~95% gross margin.

SCENARIO MODEL

Three cases.
One investor pitch line.

SCENARIO	CLOSED PRACTICES YR 1	YEAR 1 REVENUE (LEVERAGE)	YEAR 3 ARR (LEVERAGE)	CUMULATIVE 5-YR CHANNEL P&L
Conservative · Pilot only	20	₹1.5 Cr (\$175K)	₹3.3 Cr (\$390K)	₹14 Cr (\$1.7M)
Mid · Alumni + Careers bundle	75	₹5.5 Cr (\$660K)	₹12.5 Cr (\$1.5M)	₹52 Cr (\$6.2M)
High · Full diaspora rollout	200	₹14.7 Cr (\$1.75M)	₹33 Cr (\$3.9M)	₹140 Cr (\$16.7M)

Why this matters for the IPO: at the mid case, Halcyon adds ~₹52 Cr to Leverage's cumulative revenue over the 5-year IPO storytelling window — with ~95% gross margin and ~85% recurring contribution. Bankers price recurring B2B revenue at 6–9× revenue multiple vs. 2–3× for transactional study-abroad. **The valuation lift on a \$900M+ IPO target is non-trivial.**

Assumptions: \$130K avg practice collections · 5% Halcyon billing rate · 35% gross channel commission Year 1 · 10% recurring · 95% 3-yr retention · INR/USD 84.5 · No exclusivity required — Leverage retains all other partner agreements. Halcyon brings the integration cost; Leverage's incremental cost is opt-in to host the channel inside its existing partner dashboard.

WHAT WE'RE ASKING

A 20-minute call between two CEOs.

Halcyon's CEO (Naitik) and CFO (Rushan, sender) propose a brief direct conversation with Akshay and Leverage's CFO ahead of the next bankers' touchpoint. The agenda is one slide: *does this story add to Leverage's cap-table narrative, and is the 90-day pilot worth running?*

STEP • 01

20-minute principal-to-principal call

Just the four of us — no decks, no demo.
Validate strategic fit. Decide on pilot scope. End the call with a yes/no.

STEP • 02

90-day pilot inside an existing channel

Soft-launch inside one Leverage dashboard segment (alumni, employer-bundle, or diaspora — your pick). Halcyon eats integration cost. KPIs reviewed at day 60.

STEP • 03

Scale or sunset, no commitment

If pilot returns ≥ 12 closed practices in 90 days, expand to the full channel set. If it doesn't, sunset cleanly — no IP, no exclusivity, no cost-recovery owed.

REPLY WITH A 20-MIN SLOT ANY WEEKDAY BEFORE 27 MAY 2026 • RUSHAN@HALCYONMEDBILLING.COM

COUNTERPARTS ON THE CALL

Founders only. No middle layer.

CEO & CTO · HALCYON

Naitik Joshi

Founded and architected Halcyon. Owns product, technology, and the senior client relationship. Will be on the call with Akshay.

CFO · HALCYON · SENDER

Rushan Khan

Owns Halcyon's commercial & partnership economics. Direct counterpart for Leverage's CFO during the IPO prep window. Replies to rushan@halcyonmedbilling.com route directly to me.

WHAT WE SHIP IF THE ANSWER IS YES

- Referral Partner Agreement — lawyer-reviewed, 1–2 pages, DocuSign within 48 hours
- Technical integration spec — UTM-tagged dashboard channel, ACH/wire payout rails
- Quarterly attestation reports for IPO disclosure-grade auditing
- Co-branded communication templates pre-approved by Halcyon legal
- Dedicated CSM at Halcyon for the Leverage channel only

Read this before replying: Halcyon assumes Leverage already has multiple partnership conversations in flight in IPO prep. We are not asking for exclusivity, an equity stake, or a content license. We are asking for one introductory call — which will not require Akshay's time more than 20 minutes — and a pilot that costs Leverage zero in upfront capital.
